

New York (H) 1850/51 AZE

# DOGGETT'S

# NEW YORK CITY

# DIRECTORY,

FOR

1850-1851.

Ninth Publication,

ESTABLISHED IN 1842.

## New York:

JOHN DOGGETT JR., 59 LIBERTY STREET.

Price, Two Dollars.

BDG. No. 229/03

Entered according to Act of Congress, in the year 1850, by JOHN DOGGETT, JR.,

In the Clerk's Office of the District Court of the United States for the Southern District of New York.

Each and every copy of this Work is STOLEN, which has not on page 21, a circular stamp of the Office from which it is issued.

S, W. BENEDICT, PRINTER, 16 Spruce street.

# TO THE PUBLIC.

THE Canvass for names to be inserted in this work, was extended, this season, to Forty-second Street.

Those who are desirous of information on any matter supposed to be contained in this work, are requested to refer to the INDEX, placed near the Title page.

A report having been very industriously circulated about the City, to the effect that the Canvassers for this work for 1849—50 were not paid for their services, those who are interested respecting this matter, are respectfully invited to call at this office, and examine the receipts "in full," for themselves

NUMBER OF NAMES IN THIS DIRECTORY, 60,290. The number last year, was 68,677. Increase over last year, 11,613.

NAMES TOO LATE FOR INSERTION -Several names, removals, new firms, &c., received too late for regular insertion, will be found on a page preceding the body of the names.

NOTICE.—Each and every advertisement intended for insertion on the cover, or in the front part of this work, as well as all advertisements intended to be inserted in the body of this work, among the names, must be paid for in ADVANCE. and no space will be considered engaged until so paid for.

CAUTION.—No person is authorized to collect money for any advertisement inserted in this work, who does not produce written authority, signed by the Publisher.

# KUMBEL'S PATENT MACHINE-STRETCHED LEATHER BANDING.

THE ONLY PATENTED BAND IN THE UNITED STATES.

Triumphant over all opposition this article has once more received the highest of all premiums, the Gold Medal, at the Fair of the "American Institute," in October, 1849. Awarded upon mature consideration, and severe test (in competition), of the superiority and originality of their principles of construction; thus recognizing after thorough practical and public trial, that rank and position which the manufacturing community has long since assigned it as the

Best Leather Band Manufactured in the United States.

This banding is made of the solid part only of the best Cox Leather, is thoroughly stretched, cemented and riveted, will run straight and has a perfect bearing upon the pulleys.

From the superior mode of its manufacture it possesses remarkable Strength and Durability, beyond any banding manufactured. It also excels in its running qualities any band made upon other principles

any banding manufactured. It also excels in its running qualities any band made upon other principles or of other materials.

The Belt made of Leather is the only one that can be relied upon to perform well in all situations. It neither melts with friction, sticks to the pulleys, nor frets into shreds; nor is it subject to sudden combustion and destruction; all which are marked characteristics of Beltings made from Gums. The Patent Machine-stretched Leather Banding, as made by the Subscriber, will stand more heat, more cold, more friction, and is far more durable than those above referred to; and for all practical purposes, it can also be made water proof.

The best evidence of its quality is its adoption by nearly all extensive Manufacturers and Machinists throughout the city and country, the River and Sound steamers, and (with marked approbation) by the various lines of Ocean steamers. Since its introduction by the subscriber, it has revolutionized machinery to the general exclusion of gearing; and the approval of practical mechanics is further emphatically expressed by the steady increase in the demand for it from year to year. Every Belt is warranted to possess all the qualities requisite for durability and good performance, or the money returned.

They can be furnished of any length and width from 1 to 24 inches, either single, double, or round. Also superior Lace Leather, with rivets, burrs, punches, setts, &c.

WILLIAM KUMBEL, Original Inventor & Manufacturer,

WILLIAM KUMBEL, Original Inventor & Manufacturer, 33 Ferry street, New York.

#### DESCRIPTION OF

## STREVER'S FORCE PUMPS.

THE two-inch Cylinder Pumps will discharge from 15 to 20 gallons per minute, and force it from 30 to 40 feet. These are calculated for Dwelling Houses, Garden Engines, and family purposes.

The three-inch Cylinder will discharge from 20 to 30 gallons per minute, and force it from 50 to 75 feet. This size discharges one and a quarter inch stream of water. These pumps can be used with equal effect with hot liquids.

The four-inch Cylinder will discharge from 40 to 50 gallons per minute, and force it from 75 to 125 feet. This size discharges a two-inch stream of water and can be worked with man, horse, water or steam power. Stroke of piston from 3 to 8 inches.

The six-inch Cylinder will discharge a three and a half inch stream of water. This size is admirably adapted for Fire-Engines, and can be worked from 4 to 10 inch stroke of piston.

The eight-inch Cylinder will discharge a four and a half inch stream of water, and is calculated to pump about 200 gallons per minute, and can be worked with horse, water, or steam power. Stroke of piston from 6 to 12 inches.

These Pumps have been tested and give general satisfaction.

MANUFACTURED AND FOR SALE BY

J. H. STREVER,

120 Fulton st. near Nassau, New York.

# JOHN G. ASH,

# PLUMBBR,

## Corner of Spruce and William,

FITS UP IN THE BEST STYLE PLUMBING OF ALL KINDS FOR

Those who may require any work of the above description, EITHER IN OR OUT OF THE CITY,

WILL FIND THE ESTABLISHMENT OF MR: ASH, ONE OF THE BEST KIND.

## MICAL

A Remedy for all diseases of the HAIR, and a restorative in all cases where Baldness is not beyond the reach of art.

Naught for beauty can compare With soft, glossy locks of Hair— If not endowed with such by Nature, Use Phalon's Hair Invigorator.

The Subscriber having devoted a considerable portion of his time for twenty years to the study of the Skin and the Human Hair, also the best means of treating and curing the same, and having in the course of his experiments made various changes and improvements in the different articles approved of as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel The Chemical Hair Invigorator is composed of a number of different vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and compounding which is known solely to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky, and glossy moisture for the Hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood-vessels, nerves, etc., which free the Hair, thereby preventing baldness and gray Hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the Hair to curl, and keeps it so—will positively change the hardest Hair into the most soft, healthy, and glossy state, also imparts to it a dark color, and the free use of it will keep both the Skin and Hair in a healthy and luxuriant state until the latest period of life.

until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume and the great facilities it affords in dressing the Hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls, When used on children's heads, it lays the foundation for a good head of Hair.

# DISCOVERY, EXTRAORDINARY BEING A LIQUID DYE.

AFTER many years' practical experience in the art of Dyeing the Hair, unwearied research into every probable avenue of information, and a total disregard of heavy expenditures of time and money, I have at length discovered what my experience tells me to be the very best article for Dyeing the Human Hair, Whiskers, or Eye Brows, ever seen in this or any other country. Those persons who have used, or seen used, any of the various preparations offered for Dyeing the Hair, will readily appreciate the improvements now, for the first time, introduced, and will feel satisfied from these few observations, of the extent and accuracy of the subscriber's information upon this important subject; and also the great difficulties and deficiencies of all the former preparations, he has succeeded in conquering.

1st. Absence of lime or unpleasant odor.

2d. No injury to the Hair—the only perceptible effect being change of color.

3d. Its extremely easy method of application, consisting of two bottles—the first liquid being as innocent as pure water, and the second, a mucilaginous vegetable fluid, easily controlled, and remaining where it is placed—can be combed or brushed into the hair intended to be dyed, without spilling or dropping to the injury of every thing within reach.

4th. Its power to dye the hair is so effective that the hair is colored as soon as it is touched, and when dry, it is so harmless, and has so little dirt or sediment, that water alone is sufficient to render.

when dry, it is so harmless, and has so little dirt or sediment, that water alone is sufficient to render the hair perfectly clean and fit for dressing.

Knowing the difficulties he has overcome, the proprietor feels warranted in asking all who use this preparation, if they think it worthy, and find it act as represented, to do him the favor of their recommendation to those they may happen to know, to whom this article might be useful; thus obliging your friends, and at the same time rewarding my endeavors to advance this important science.

Respectfully,

EDWARD PHALON,

No. 197 Broadway, corner of Dey street, under the Franklin House

# BLAKE'S PATENT FIRE-PROOF PAINT. 84 PEARL STREET, NEW-YORK.

This extraordinary substance is found in a stratum of rock in Sharon, near Akron, Ohio. When taken from the mine it has all the appearance of the finest Indigo, and is no harder than cold tallow, but exposure a few days to the atmosphere turns it to a hard SLATE or STONE. It is reduced to a fine powder, mixed with Linseed Oil to the consistancy of thick paint, and applied with a brush; and after exposure for a few months to the atmosphere, this coating becomes a perfect slate, protecting whatever covered from the action of the WEATHER and from FIRE. It has been found upon analyzation by Dr. CHILTON, of this city, to consist of larger proportions of Silica, Alumina Prot. Oxide of Iron and Magnesia, with lesser of Lime and Carbon; the transition, therefore, according to the opinion of Drs. Chilton and Locke, from the liquid paint to the hard slate is accounted for according to nature's own laws; as the oil absorbs and evaporates by the action of the atmosphere, the powerful adhesive attraction incident to the Prot. Oxide of Iron, binds and attracts not only the particles together, but also to the substance covered, so that the longer on, the more powerful the attraction, consequently the harder the slate, and the closer it will adhere to the substance applied. It is being used extensively for covering roofs of either shingles, matched boards, tia, zinc, sheet iron or thick paper. There is nothing equal to it for Steamboat or Car decks, and for all kinds of Iron, as it forms a coating nearly as hard as the iron itself, and never cleaves off, it is a perfect DESIDERATUM for old leaky Tin roofs as it enters into all the cracks and forms a complete stone coating over the whole roof.

It is used upon brick walls both as a paint and cement. It forms a perfect stone coating, through which not a particle of moisture can pass. In fact, it can be used upon anything you wish to protect from fire or weather. The Government granted me, on the 28th March, 1848, a patent for the discovery of its application as a fire and weather proof composition, or artificial slate.

The Fair of the American Institute, held last Fall, awarded me a medal, and the Fair of the State of N. York, a Diploma, The Examining Committee of the American Institute, of whom Dr. J. R. Chilton was Chairman, and had some three years previous analyzed it, states in the report, that it was an article superior to anything that had been presented as a weather and fire-proof covering.

### CERTIFICATES.

This may certify that we have been acquainted with "Blake's Patent Fire Proof Paint" for some years and are well assured that it is really what its name indicates—FIRE-PROOF, we consider it a better fire-proof than Tin or Zinc, and will insure buildings well covered with it at a much lower premium than those covered with the above mentioned metals.

#### BLAKE'S PATENT FIRE-PROOF PAINT.

## Look out for Fraud!

For the past few months there have been scores of individuals engaged in digging, grinding, and sending to a distance all kinds of STUFF, much of it no better than dirt from the street, or clay from any bank, calling it all good Fire and Weather Proof Paint, like mine they say, but of a different colour. Now it is impossible for them to know anything of the weather-proof qualities of this counterfeit article, as it has not yet been two years since they first commenced digging it and according to the opinion of Dr. Chilton, of New-York, and Dr. Lock, of Cincinnati, this stuff is entirely worthless as an outside coating, as it has neither the Red or the Black Oxide of Iron in it. consequently there can be no cohesive attraction; therefore, as the action of the atmosphere destroys the oil with which it is applied, it will wash or rub off like chalk or whiting. I have the certificates at my office of more than twenty inhabitants of Sharon, Ohio, where the paint is made, who state that they have used this counterfeit stuff and it has proved entirely worthless, and there has been such an entire failure of the different kinds of stuff got up and sold as fire-proof paint, except Blake's that his only is considered worth using. Others are endevoring to sell an article, similar to mine in violation of my patent, contending that my patent is invalid and that they have a right to manufacture and sell the substance.

I will state that a few weeks since I agreed with an agent here of the infringing parties in Ohio, to submit my Letters Patent to referees in order to test its validity and agreed in case the referees concur in the opinion that the patent was not granted in conformity with the United States patent Laws and is invalid, I was to let him go on and sell without interruption, but in ease they concur that it is valid he agrees to sell no more of said paint, We therefore on the 15th May submitted the case to the Hon. Chesseldon Ellis, former member of Cougress and C. M. Keller, Esq. Counsellors at Law in the City of N. Y. as referees, and after examination they on the 21st. inst. reported that they concur in the opinion that the patent is valid, and at the close of their decision say "we are clearly of the opinion that Mr Blake's Letters Patent are valid and that any one who prepares this earth in any manner substantially similar to the mode described and applies it to any of the purposes enumerated in his patent is liable to him for any damages that he may sustain which damage he can recover at Law.

Signed C. M. KELLER, CHESSELDON ELLIS.

Daniel Webster's Opinion of the Patent.

In order that the public might have the benefit of the opinion of one who has from his position and experience acquired a notoriety broader than the Union, I have submitted my Letters Patent to the Hon Daniel Webster for the purpose of obtaining his opinion as to its validity and after a thorough examination concludes his report as follows "I have no doubt whatever that Mr. Blake's Patent is good and valid, that it protects him in the sole preparing, making, and selling the Artificial Slate or Hard Paint, and that any person who shall make, prepare, sell, or use his article, or any article formed essentially from the same material, and by substantially the same manner of preparation of treatment, is liable to him for an infringement of his right, and answerable in damages according to the provisions of the Patent Laws of the United States.

Washington, March, 25th1850

Signed DANIEL WEBSTER.

#### Extract from the New-York Sun.

Blake's Patent Fire-proof Paint.—We last season procured a sufficiency of this most singular and valuable article to cover the roof of the Sun Building, and now find that it proves all that was said of it, as there is not a check or crack to be seen, but is now one continued sheet of stone over the whole roof, and the tread upon it does not seem to effect it although it is upon tin, the roof leaked badly before it was applied, but has been perfectly tight since We understand that Mr. Blake spent his whole time, for more than three years, in experimenting with the pigment, at length he discovered that by reducing it to a powder and mixing it with oil, he had a compound that could be as easily applied as ordinary paint, and in a few months would become a perfect slate or coat of mail, protecting whatever covered from the action of the weather and fire. He now might have well exclaimed "Eureka" i e "I have found it," for it was a desideratum that had for centuries been sought invain. This paint has proved so popular that hundreds we understand are getting up all kinds of worthless stuff, and selling it as Fire-Proof Paint. It therefore will be well to be particluar and see that every package has Mr. Blake's stamp upon it, as it is a patented article, therefore if they get that that makes the genuine artificial slate of others they expose themselves to a prosecution for an infringment of his patent, but if a worthless counterfeit article, of course they loose their money. The genuine article can be found at the gen Depot, No. 84 Pearl Street, by Wm. Blake, the patentee.

The public therefore will be particular and see that every package has my brand upon it, for if they get the powder from others that will make the genuine Artificial Slate, they make themselves liable to me for an infringement of my patent, and if they get the spurious article of course loose the money they pay for it.
